

Cycle Connection Grand Re-Opening

By Tim Bruce

Saturday, April 21 was indeed a Grand event at Cycle Connection. If you haven't visited in a while, the new Service Department is a sight to see. When they have a party, they go all out. The food and drink were catered and heck, there was even live music by Mirage. Everyone went home saying that it was a great day.

There was plenty of excitement outside and if you ventured inside you could have purchased a ticket or two for the MDA Bike raffle. If you found a patch while you were shopping there was even a person to sew it on for you. That sure beats having a pile of patched at home. The Humane Society was also there.

With the constant flow of traffic in and out, I would guess that several thousand people showed up to support the event. The parking lot had very few opening, but everyone managed.

The burnout event fell a little short of the 300 bike world record, but still put out enough tire smoke to kill every bug in the area.

Owners Scott & Nancy and Cindy though busy running their tails off all day, were very pleased and proud o the support and turnout for this day. The only time they stood still was for the picture I took.

For their next event, be sure to check our calendar or go to their website www.cycleconnectionh-d.com. This Grand Re-Opening event will be hard to beat, but I am sure they will try.
