

# TJ's First Bike Show of 2007

By Dennis Martin

TJ's Bar and Grill started off this riding season with the Spring Fling Bike Show, sponsored by Jireh Cycles. I hadn't seen this many bikers in one place since fall of last year. The average person would have thought they were giving out free beer, but bikers know this is just a cool place to hangout. As everyone was checking out the bikes that ranged from the new and shiny to the aged and rusty, the same question was asked, "I wonder how that one rides?" I know the oldest bike there was a 1924 Harley Davidson JDCA. The newest one was hard to figure out.

The DJs kept the tunes going throughout the day. It was too bad that the rain the day before had the grass area soaked. If it would have been dry, they Wienie Bite and the Slow Ride competition would have been a great way to end the day. So the DJs improvised by having a few pole dancers compete. They had to use the PVC "wienie bite" poles, so it was a bit of a challenge. I should mention there were also a few "kitties" around that day, you had to be there to understand.

One of the things I like to do at events is see some of the t-shirts and where that person has been. Let's face it, a shirt from far away makes a statement. There were of course local shirts, but shirts from places like Texas, Louisiana, Sturgis, Little Sturgis, and Daytona, really got my attention. I liked the ladies shirts the best; they have a better shape than the guy shirts.

When you have the time, check out the TJ's web site at [www.tjsbarngill.com](http://www.tjsbarngill.com). They have their photos and next events posted. We will see you next time.
